

GLOBAL STRATEGIC HYPOTHESES:

The Capitals-System No Longer Works, Even to the Extent It Once Did

DIAGNOSIS & PRESCRIPTION --

The *Global Failure of the Present System*

&

The *Emergence of a Successor System*

DIAGNOSIS: The self-continuation of the capitals system predictably concentrates predominant capital ownership, & therefore predominant monetary power, & therefore predominant political power, in ever fewer hands.

This concentration of money-power concentrates real political power in a handful of plutocratic, humanocidal crime-families – a power escaping all existing constitutional, merely-political checks & balances -- as these plutocratic families prostitute executive, legislative, & judicial branches of government at all levels to their “Big Money”, & assassinate leaders they cannot prostitute [e.g., JFK, RFK, MLK, Mel Carnahan, Paul Wellstone, Gabrielle Giffords, etc., etc., etc.].

Example: The international political machine of those serial mass murderers, the "Eugenicist"-humanocidal Rockefeller Mega-Crime Family, conducts a *global* “invisible dictatorship” [in part, via Exxon-Mobil, J. P. Morgan Chase, “B of A”, “Citi”, Goldman Sachs, the Rockefeller Foundations, the “Federal” Reserve, the AMA, the Baptist “Church”, the NY “Council” on Foreign Relations, the Trilateral “Commission”, the IMF, WB, WTO, UN, WHO, etc., etc.]. Such ruling families, since at least 1913, have declared total war on a growing threat to their power inherent in *later* competitive capitalism itself, and of which the 99% may have had scarcely an inkling to-date: that of **accelerating technological obsolescence depreciation** of concentrated capital, capital which accumulates increasingly as technology-materializing fixed capital for oligopolistic / monopolistic plutocratic families. Competition from new entrants, wielding more productive/cheaper/more advanced fixed capital, “technodepreciates” those families’ capital-assets, annihilating its capital-value/the value of its products, in industries they directly own [e.g., oil], forcing contra-profit write-offs [loss increments], & inducing defaults on their banks’ humongous loans for capital equipment purchases to other industries’ owners [whom they rule over, in part, by such debt]. Improved products/productivity – the essence of this “technodepreciation” process -- betters life/reduces life-cost for most of humanity, but is anathema to these << “1%”.

Example: The advent of zero-radioactivity fuel-cycle fusion power generators would soon essentially zero-out the capital-value of the Rockefeller/Exxon-Mobil global plant and equipment investments, and of their product: oil.

This Plutocracy’s Reaction to the Above-Defined “Technodepreciation” Threat to their Power:

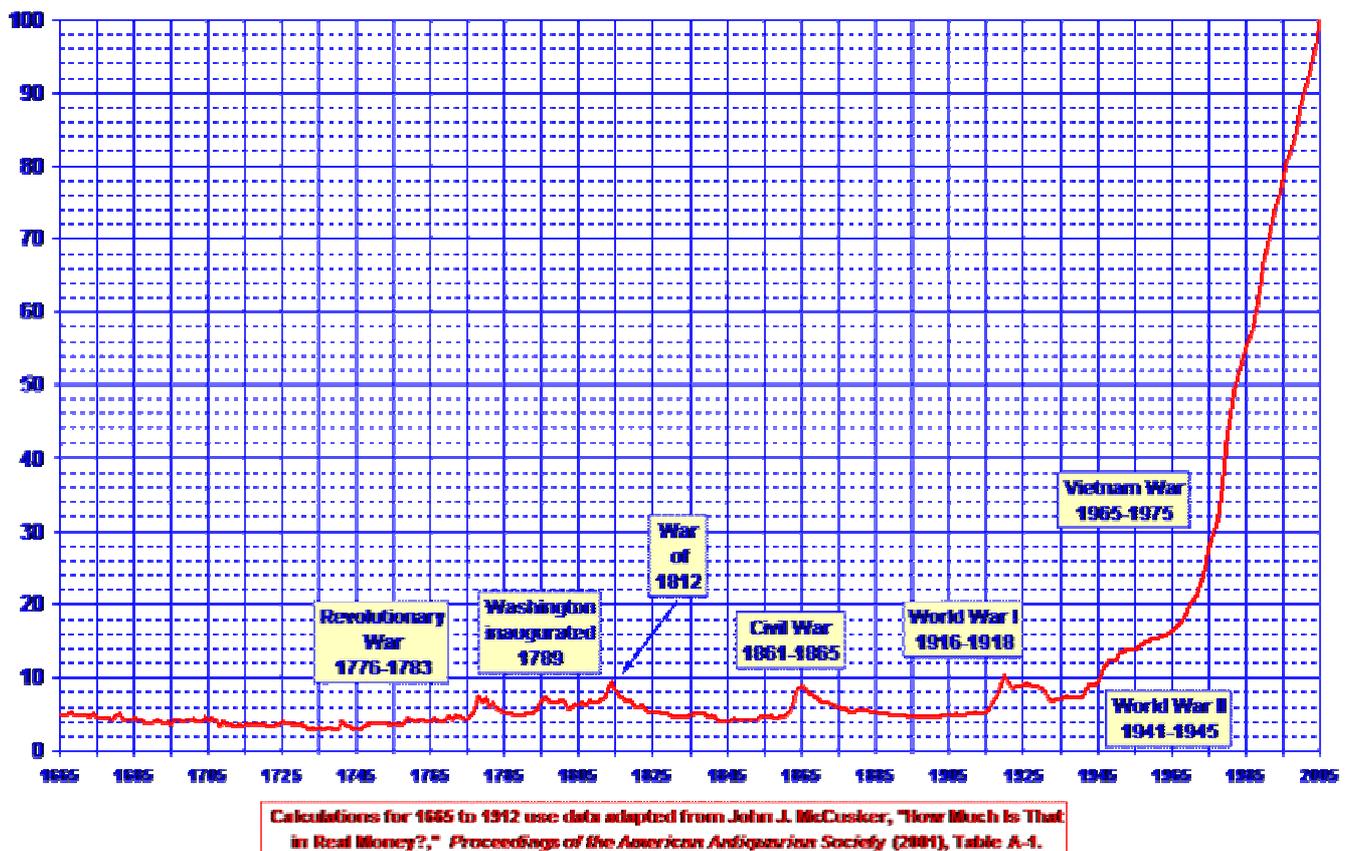

(1.) In the global “periphery” of the “core” capital-based countries [US/UK/EU], this plutocracy moves to –

- **Create the “Third World”.** They set up military/comprador **servant-dictatorships** throughout the not-yet-industrialized “periphery”, in Eastern Europe, Asia, Latin America, & Africa, to suppress the technodepreciation threat of low-wage/latest capital plant & equipment rapid industrialization there [which “worked”, until the post-WWII industrialization-renaissance of Japan, then the China/Brazil/India resurgence. Japan’s ongoing *national* depression, ever since 1989, via “Bubble Engineering”, starting in real estate, was a “dress rehearsal” for the *global* capital-asset bubble/collapse, also engineered by the “*Rocke-Nazis*”/“*Rothe-Nazis*”, visible since 2008].
- **Impose a “Meta-Nazi” Regime there.** This plutocracy imposes a “meta-dictatorship”, based on their heterogeneous multiplicity of *national* military/local-oligarchy **servant-dictatorships** in the nations of the resulting “Third World”, whose impoverished, thus restive, populations are thereby brutally “**pacified**” & **reduced**.
- **Propagate Genetically-Engineered, “Eugenics/Population Reduction” Designer Diseases.** **Example:** AIDS.

(2.) In the global “core” capital-based countries [US/UK/EU], this plutocracy moves to –

- **Impose the Income Tax.** They make the working class, & the smaller, weaker capital-owners, foot the bill for the military invasion/“intelligence”/secret police costs of maintaining the “**Meta-Nazi regime**” in the “**Third World**”, **as yet a further forced deduction from workers’ wages.** **Example:** U.S. 16th Amendment, 1913.
- **Impose “fiat money” central banking regimes.** **Example:** The U.S. “Federal” Reserve, created in 1913.
- **Impose “Permanent Inflation”.** They impose fiat currency central banks, making workers & small capital owners pay for the ongoing technodepreciation that the plutocratic “invisible dictatorship” can’t otherwise suppress. See: Dr. Geert Reuten, “*The Incompatibility of Prolonged Technical Change and Competition: ... Socialization of Entrepreneurial Losses through Inflation*”, <http://www1.fee.uva.nl/pp/bin/642fulltext.pdf>; **Evidence:** <http://oregonstate.edu/cla/polisci/faculty-research/sahr/pl1665.htm> --

US Price Levels 1665 to 2005, in Constant (2005) Dollars

- **Cripple/assassinate technological innovators/scientific truth-tellers.** **Examples:** Preston Tucker, John DeLorean, Philo Farnsworth, Eugene Mallove, Robert Bussard, Steve Jobs; Carl Sagan, Michael Crichton, Julian Simon.
- **Massively fund “population reduction” ideologies/policies.** **Examples:** Rockefeller/Nazi “**Eugenics**” [pre-WWII]; **Rocke-Nazi** funded recrudescence of new dark ages/fundamentalist/theocratic-totalitarian “religions” & of anti-science/anti-technology/neo-Malthusian/Social Darwinist/humanocidal/“**people are pollution**” ideologies.
- **Bring the “Third World” Home.** Via plutocracy-captive government policies of middle class impoverishment. **Examples:** job-theft, home-theft, pension-theft, planned Social Security/Medicare repeal, destruction of access to higher education, medical costs hyperinflation [Note: John D. Rockefeller himself orchestrated the ascendancy of the AMA, suppression of naturopathy, etc.], setting the stage to “bring home” the “Third World” **periphery-style** open/visible dictatorships to the “First World” **core**. Their **Goals:** (a.) **make life increasingly impossible for the majority, including by making life increasingly unaffordable for the majority.** (b.) Crash industry/middle-class/democracy rise in the “BRICS” +, by crashing US/UK/EU consumers’ power to buy their products.

(3.) Overall – *Engineer a Global Depression to enable Global Totalitarian, Humanocidal Dictatorship. Examples:*

- **1930s -- Global Great Depression I:** The Rockefeller/Morgan/Rothschild plutocracy created the 1930s Global Great Depression via their technology of “Capital Asset Bubble Engineering”, imposed their totalitarian, genocidal servant-dictatorships in Spain [Franco], Portugal [Salazar], Italy [Mussolini], Hungary [Horthy], Argentina [Castillo/Peron], Japan [Hirohito/Tojo], China [Chiang Kai Shek], Russia [Stalin], and Germany [Hitler], & attempted a military coup in the U.S. [thwarted by General Schmedly D. Butler]. Hitler’s “Franken-Dictator” turn against that plutocracy, aiming to “take their place” of global dictatorship for himself, aborted this, their first attempt at a global “*meta-Nazi*” ‘meta-dictatorship’. “Second World”, Stalinist/Maoist *state-capitalist* totalitarian/genocidal dictatorships in Russia and China, vying with the “*Rocke-Nazis*”/“*Rothe-Nazis*” for world dictatorship after WWII, blocked any “*Rocke-Nazi*”/“*Rothe-Nazi*” World Depression 2nd try, until after 1989. Their New Goal now: *Reverse* the “New Deal” reforms they used to “buy” working class support against their ‘Franken-Dictators’, Hitler/Stalin, etc.; reforms “no longer needed” ever since the ~ 1989 demise of Stalinism.
- **The Present -- Global Great Depression II:** Rockefeller banks -- J. P. Morgan Chase/“Citi”/“B of A”/Goldman Sachs – concocted fictitious capital derivatives, fraudulently foisted as “high return/low risk” assets, aided by their prostituted capital asset rating agencies’ fraudulent triple-A ratings of these “assets”, duping other banks worldwide to fork over their liquid *actual assets* to buy these mortgage-backed *pseudo-assets*. These “assets” values/returns were then collapsed, using the usual “bubble-engineering” tech., crashing stock markets worldwide; rendering millions of workers job-less, home-less, 401(k)-less, & pension-less, & plunging capital reserve ratios of duped buyer-banks to insolvency levels, blocking further lending, crashing economic activity. Central banks & governments in US/UK/EU responded, per plan, transferring this private bank/corporation fictitious capital debt to “taxpayers” [mainly workers], handing trillions of “taxpayer” dollars [taxed-away wages] to these criminal/dupe banks & other corporations, thus converting a private debt crisis into a public, sovereign debt crisis in the US/UK/EU, to “justify” repeal of pensions/social safety nets [U.S. Examples: planned Social Security/Medicare “reform” [i.e., repeal]], & to impose hyper-contractionary “austerity” against the working class, with escalation of education & medical costs, etc., in the US, UK, Iceland, Ireland, Greece, Spain, Italy, etc., inducing thereby drastically deepened global economic collapse, now targeted by the plutocracy for ~ 2013, to impose *state-capitalist, totalitarian rule*, & catastrophic “*95% population reduction*”, against all working classes, once the plutocracy consolidates their global ‘meta-dictatorship’. Worldwide *Police-state, state-capitalist dictatorships*, dealing out *humanocide* to the working/“middle” class globally, is now the only way that the “*Rocke-Nazi*”/“*Rothe-Nazi*” *plutocrats* see to preserve their global power against “Third World” industrialization, middle-class/democracy expansion, & accelerating technological progress. *The time has come for we the people to end the plutocracy’s power, globally, before they “end” us! The only power that can save our lives now is our own collective power.*

PRESCRIPTION: Political-ECONOMIC DEMOCRACY, via --

- **International citizen boycotts** of the products & “services” of global corporations who prostitute government policies against the 99%, e.g., J. P. Morgan Chase, “Citi”, “B of A”, Goldman Sachs, Exxon-Mobil, GE, etc. etc.
- **Equitarian Constitutional Reform / Equitarian Non-Violent Social Revolution** -- Constitutional establishment, via global “‘populist’” up-rising, of new, **Universal Equity Rights**, creating **ECONOMIC** checks-&-balances, to also resuscitate existing, moribund **political-only** checks-&-balances, presently vitiated via wholesale prostitution of executive, legislative, & judiciary branches of government, alike, by concentrated, plutocratic economic power:
 1. **Citizen Externality Equity Rights** – Popularly-elected **Boards of Public Directors** in all localities, constraining the production of pollution, etc., “externalities” by enterprise local operating units’ private boards of directors / management committees. Popularly-elected **Associations of Public Directors** at the local, regional, national, &, eventually, continental & global levels reshaping the geography of human society.
 2. **Citizen Birthright Equity Rights** – ‘Social self-investment’ via a Social Trust Fund for each newborn Citizen, by right of birth, to help defray lifetime costs of education, re-training, health care, home ownership, etc., with “moral hazard” mitigating, legislated expenditure constraints.
 3. **Citizen Stewardship Equity Rights** – Competing, Citizen self-organized *producers’ cooperatives* that have qualifying business plans, & that are democratically self-managed internally, are granted stewardship of the social property needed to launch their cooperative enterprises, & to conduct their business plans, with two income streams for each stewardship cooperative member: an equal share in net profits of each stewardship cooperative for each of its members, & a job-based, skills-based competitive salary for each of its members.
